

HOBOWare Pro 3.0 is included with the ZW Receiver

Advanced Software Capabilities

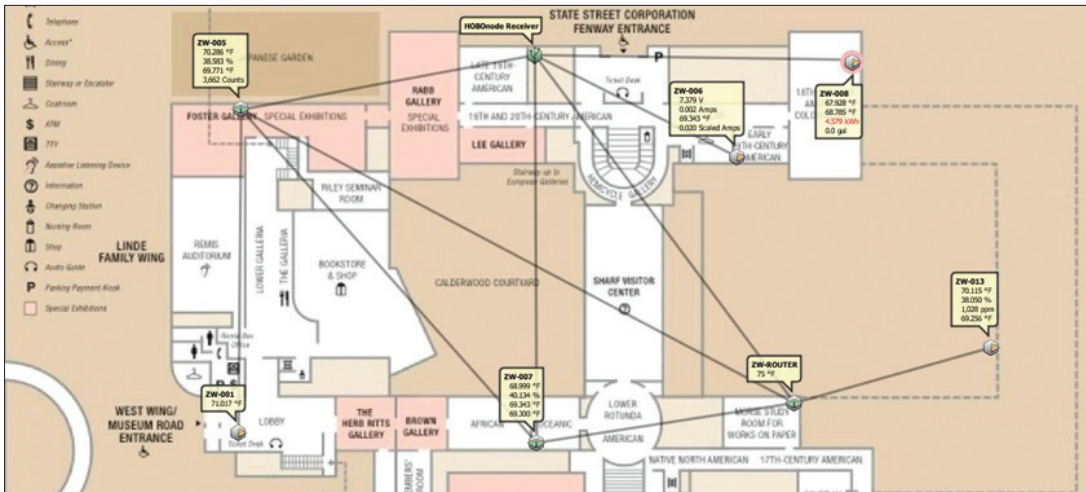

HOBOnode™ Manager software, a component of HOBOWare Pro graphing and analysis software, lets you view real-time energy and environmental data, set alarm notifications, and get an at-a-glance view of your network with the Network Map feature. HOBOnode Manager software also offers one-click export of your data to Microsoft Excel and other programs, and provides network signal strength indication.

Alarm Capabilities:

- HOBOnode Manager software will send a text message to your phone and email your computer when conditions exceed set thresholds.
- System alarms lets you know if a data node is not connected to your network.

Network Map Feature

In many monitoring applications, it's important to view a complete network of your HOBO Data Nodes. HOBOnode Manager's Network Map feature provides an at-a-glance view of your network so you can easily locate your HOBO Data Nodes within a building.

HOBOnode manager's Network Map feature provides at-a-glance view of a HOBO data node network.
